

Gaurav Rajasekhar

B.Sc. Genetics and Molecular Biology | Biomedical Sciences

About

Gaurav Rajasekhar is a passionate student of Genetics and Molecular Biology with a strong interest in understanding the molecular basis of biological processes. His academic interests include genetics, molecular biology, oncology, genetic engineering, and bioinformatics.

He has developed a strong foundation in laboratory techniques and research-oriented approaches, with a keen interest in contributing to biological sciences and research that can create meaningful benefits for society.

Academic Background

B.Sc. in Genetics and Molecular Biology

The Apollo University, Andhra Pradesh
2023 – Present

Senior Secondary Education (Class XII), BiPC

Meridian School, Madhapur, Hyderabad
2023 | Score: 82.8%

Research & Laboratory Experience

Laboratory Intern

Dr. Reddy's Institute of Life Sciences, HCU Campus, Gachibowli, Hyderabad
2024

During his 45-day internship, Gaurav gained practical exposure to molecular biology laboratory techniques and developed hands-on experience in in-situ hybridization using zebrafish to understand disease mechanisms.

The internship also provided valuable experience in:

- Conducting laboratory experiments
- Data analysis
- Research documentation
- Molecular biology techniques
- Understanding experimental approaches in biomedical research

Research & Conference Participation

Gaurav has actively participated in academic conferences and research-oriented events, including:

- **National Conference for Undergraduate Research in Biosciences (NCURB)** – IISER Tirupati, 2025
- Presented a poster titled “**Phytochemical Screening and Antioxidant Properties of Traditional Medicinal Plant – *Salvadora persica***” at the International Conference on Biotechnology, Medicine, and Cancer Therapeutics (ICBMCT), Sri Venkateswara University, Tirupati, 2024
- Participated in the **TARGIYAM Conference** organized by The Apollo University, Chittoor, 2025

Certifications & Professional Development

- **Cell Culture Technologies** – NPTEL | Score: 73%
- **Basic Principles of Cell Signaling** – Coursera

Areas of Interest

- Genetics
- Molecular Biology
- Oncology
- Genetic Engineering
- Bioinformatics
- Biomedical Research

Skills

- Molecular Biology Techniques
- Genetics
- PCR
- Gel Electrophoresis
- Bioinformatics Tools
- Laboratory Skills

- Research Documentation
- MS Office

Languages

English | Telugu | Hindi

Alumni Highlight

Gaurav Rajasekhar represents the spirit of curiosity, scientific learning, and research-driven growth. His exposure to molecular biology techniques, laboratory research, scientific conferences, and academic projects reflects his commitment to developing as a young researcher.

With a growing interest in genetics, molecular biology, oncology, genetic engineering, and bioinformatics, he continues to build the knowledge and practical skills required to contribute to the evolving fields of biomedical and biological sciences.
